

From The Desk Of The Central Bureau  
СЛАВА СОВЕТСКОМУ СОЮЗУ  
November 3<sup>rd</sup> 1954

Salutations, Comrade [INSERT NAME]!

We at the Central Bureau thank you for undertaking this task on behalf of the Communist Party of the Soviet Union.

You have been selected from a lottery of citizens to provide an objective inspection of a state work camp.

**Skrytana Stantsiya** is located just east of the Ural Mountains. It is a work camp for prisoners whose sentences include manual labor. The supervising officer is Captain Vasily Severov. At present, the prisoners are working to excavate a historic site which Skrytana Stantsiya is built around.

The **cause of investigation** is the discovery of an escaped prisoner—Kalim Novosyersky. Novosyersky evaded capture and made his way to a military outpost in Nenetsia, where he was observed to be in fatally poor health. He claimed he had gone back in time and seen horrible monsters in the excavation site. Upon the discovery of Novosyersky, an escort was dispatched from Skrytana Stantsiya who returned the escaped prisoner to the stantsiya, where he reportedly **died of poor constitution**.

Your assignment is to travel to Skrytana Stantsiya along with other members of the investigative team, **inspect the conditions prisoners are being kept in** to ensure they align with regulations and to prevent future escapes, and to **ascertain the cause of Novosyersky's disruptive behavior**.

This incident has lately received media attention, and the Central Bureau is eager to resolve the matter immediately.

You will find attached an investigative form. **Complete the form** during your inspection.

Thank you for your work, Comrade.

Glory To The Soviet Union.
